Introduction

This guide documents enhancements included for the Banner® Financial Aid 8.25.1 release.

Release hints, suggestions, and corrections

Any release hints, suggestions, or corrections to this release guide that arise, subsequent to the posting of this release, will be documented in the, *Are there any helpful hints, suggestions, and/or corrections to the Banner Financial Aid 8.25.1 Release Guide?*, Article #000035330, and made available through the Ellucian Support Center (<http://www.ellucian.com/Solutions/Ellucian-Client-Support/>). It is recommended that you refer to this document periodically under Article #000035330 as you use the new release functionality.

Enhancements

The following enhancements are included in this release:

Federal ISIR Listing of Colleges

The functional and technical sections describe changes made for the 2016-2017 aid year (and beyond) used to review and process EDE and ISIR records.

Transfer Monitoring

The functional and technical sections discuss changes made for Transfer Monitoring/Financial Aid History. Changes to the Transfer Monitoring/Financial Aid History processes and batch file layouts affect both 2015-2016 and 2016-2017 financial aid processing.

Miscellaneous Enhancements

The functional and technical sections describe miscellaneous enhancements, Change Request (Defects and Enhancements), and resolutions included in the 8.25.1 release.

California Dataload

The functional and technical sections describe the Banner Financial Aid interface used to process data as a result of the California Dream Act of 2011.

The California Dataload process is used by California Banner clients to process California Dream Act students without legal immigration status. These students will complete the California Student Aid Commission's (CSAC) own Dream Application in lieu of the Free Application for Federal Student Aid (FAFSA). The data received from this process is required for California State Grant processing for these students. The system modification will include changes needed to process the California dataload process for 2016-2017. To support this functionality, a new Banner Financial Aid dataload process was created for the state of California.

Cumulative documentation and patches

This document provides detailed information about the Banner Financial Aid 8.25.1 release. Banner Financial Aid 8.25.1 is a cumulative release that also makes reference to patches delivered after Banner Financial Aid 8.25.

New functionality delivered with Banner Financial Aid 8.25.1, as well as the patches delivered after the Banner Financial Aid 8.25 release, are documented in the *Banner Financial Aid 8.25.1 Release Guide*.

Resolutions

This section provides information regarding problems resolved as part of release 8.25.1.

Federal ISIR Listing of Colleges - Functional

This functional section describes changes made to review and process ISIR and EDE records.

Overview

During the August 20, 2015 Department of Education Software Developers Webinar, developers were notified that the Central Processing System (CPS) would be changing the method used to report college choices on the federal Institutional Student Information Record (ISIR).

Note: Additional webinar related information can be found at:

<http://ifap.ed.gov/presentations/attachments/0815SoftwareDevelopersWebinar.pdf>

Additionally, on November 12, 2015, the Department of Education published an Electronic Announcement to clarify proposed changes. This communication stated, in part:

" . . . This means that only the receiving institution's information will be included on the ISIR in fields #141 and #142, respectively. The remaining college codes and housing code fields (ISIR Fields # 143 - 160) will be blank, as will the Electronic Federal School Code Indicator (Field #370), the FAA Federal School Code (Field #170), and the Multi School Code Flags (Field #372). The Electronic Transaction Indicator (ETI) Flag (Field #371) will be set to the ETI flag of the school receiving the ISIR. . . ."

Note: The entire November 12, 2015 communication can be found at:

<http://ifap.ed.gov/eannouncements/111215ListingOfCollegesOnISIRs.html>

Changed forms

Beginning with the 2016-2017 aid year, the ISIR provides only the college choice to which the ISIR is being sent (on each record). This change may present issues for multi-campus institutions that share a Banner instance. These institutions may load multiple copies of the same transaction and, in turn, need to determine which to make the current record.

Modifications have been made so you can easily determine which record to load, and which has been selected as the current record.

Financial Aid Suspended Records Maintenance (RCRSUSP)

The RCRSUSP form has been updated to add one new field for the 8.25.1 release.

For the 2016-2017 aid year and beyond, the form displays the **College Choice** for the incoming EDE records on RCRSUSP, to identify and load only the records needed for processing on RNANAx.

The following image shows the RCRSUSP form:

The screenshot shows the 'Financial Aid Suspended Records Maintenance RCRSUSP 8.25.1 (FAIDCIT2)' window. At the top, 'Data Source' is set to 'EDE Record' and 'Aid Year' is '1617'. The 'Data Load Record' section contains the following fields:

- ID: 230010147
- SSN: 999999999
- Last Name: Edwards

At the bottom, there are buttons for 'Delete Record', 'Match', 'Select ID', and 'Load'. Below the form is a 'Match Results' table with columns for ID, Change Ind, Name SSN/SIN/TIN, Address, Telephone E-mail, and Birth Date Gender.

The following field has been added to the form:

Field	Description
College Choice	<p>College choice. (RCRTMP1_FED_COLL_CHOICE_1 - 3 and RCRTMP3_FED_COLL_CHOICE_4 - 10).</p> <p>Note - As mentioned earlier, the Department of Education has indicated that only Federal College Choice field 1 will contain data. However, Banner Financial Aid will continue to evaluate all College Choice fields, in the event a change is made. Banner Financial Aid will display the first of these fields that is not NULL.</p>

Applicant Need Analysis Application Inquiry (RNIAPPL)

The RNIAPPL form has been updated to add one new field for the 8.25.1 release.

For the 2016- 2017 aid year and beyond, the form only displays the **College Choice** for the ISIR, EDE records. This ensures that only the appropriate record, identified as "current" is active.

The following image shows the RNIAPPL form:

Application Source	Sequence Number	Current Record	SAR EFC	Transaction Number	Primary Pell EFC	Primary System EFC	Verification Indicator	College Choice	Date Created	Date Updated

Miscellaneous Enhancements - Functional

This section describes miscellaneous functional enhancements included in the 8.25.1 release.

California Dataload

The California Dataload process is used by California Banner clients to process California Dream Act students without legal immigration status. These students are required to complete the CA Student Aid Commission's own Dream Application in lieu of the Free Application for Federal Student Aid (FAFSA). The data received as a result of this process is required for California State Grant processing for these students.

System modifications have been made to process the California Dream Act students for the 2016-2017 aid year.

Changed forms

The following Banner Financial Aid forms have been modified for this release:

2015-2016 Need Analysis (RNANA16)

The RNANA16 form's logic was updated to display values for infc codes EDE, CAL, and MANUAL for the RCRAPP1_PERMIT_DRAFT_REG. Currently, the RORMVAL values retrieved for the field are based on a KEY 2 value of *NULL*. This was updated to populate the drop list where `rormval_key_2 = CAL`, if the source in the key block is *CAL*. Otherwise, the form will use the current logic (`rormval_key_2 = NULL`) for populating the drop list.

2016-2017 Need Analysis (RNANA17)

The RNANA17 form's logic was updated to display values for infc codes EDE, CAL, and MANUAL for the RCRAPP1_PERMIT_DRAFT_REG. Currently, the RORMVAL values retrieved for the field are based on a KEY 2 value of *NULL*. This was updated to populate the drop list where `rormval_key_2 = CAL`, if the source in the key block is *CAL*. Otherwise, the form will use the current logic (`rormval_key_2 = NULL`) for populating the drop list.

New process

California Application Dataload Part 1 (RCPCA17)

The new RCPCA17 process is a copy of the RCPCA16 process updated for the 2016-2017 aid year. The new RCPCA17 process is used to import the California ISIR data. This information is stored in temporary tables which are also used for EDE and CSS data.

The following new or changed parameters are effective for 2016-2017:

Parameter 01	Aid Year Code for 2016-2017
Help	This must be the aid year code for the 2016-2017 school year.
Default value	1617
Valid values	1617

Dataload

The RCPCA17 process has been updated to load correct CAL data into the appropriate Banner temporary tables and columns.

There are no new fields for the 2016-2017 aid year.

Note: Existing fields with modified content for the 2016-2017 aid year are noted with *emphasized* text.

The RCVAPPL View has been updated to use the new `RCVAPPL_COLL_CHOICE` column for college choice for EDE and ISIR INFC codes, so that the associated data is easily available to the RNIAPPL form and for use in reports, population selections and rules.

Beginning with the 2016-2017 aid year, the college choice value will be added to the view (`ROBINST_AIDY_CODE` where `ROBINST_AIDY_END_YEAR` is 2017).

The first of the following values that is NOT NULL is used:

- `RCRAPP1_FED_COLL_CHOICE_1` - 3

Note: Comment codes that are *emphasized* are new and have been added for the 2016-2017 aid year. Comment code 031 was added for 2015-2016 and 2016-2017.

Note: The `RTVICMT_TYPE` will have a value of `C` to designate the CAL comment codes. Comment codes with `RTVICMT_TYPE = C` will be used on RNIMS17 when the `INFC` code = `CAL`.
