Introduction

This release guide documents Release 7.5 of Banner Faculty and Advisor Self-Service. Release 7.5 includes the addition of the Concise Student Schedule page (bw1kcrse.P_FacStuSchd) and problem resolutions.

Miscellaneous Enhancement

The section discusses the following topics:

- [“New Web Page” on page 7](#)
- [“Changed Menu” on page 10](#)

New Web Page

Concise Student Schedule (bwlkcrse.P_FacStuSchd)

This page displays the details of all sections in which a student is currently enrolled for the selected term. RPE #1-1IB2RH is delivered with this enhancement.

The display of registered courses on this page is controlled by the **Print On Schedule** checkbox on the Course Registration Status Code Validation Form (STVRSTS). Only courses with statuses for which the **Print On Schedule** checkbox selected are included when the schedule is displayed. It is recommended that statuses for dropped courses should not have the **Print On Schedule** checkbox selected, as listing dropped courses on the schedule may cause confusion.

If the user has not selected a term during the current Web session and selects **Concise Student Schedule** from the Registration Menu, the Registration Term page (bwskf1ib.P_SelDefTerm) is displayed first. If a term has been selected, that term is used, and the Concise Student Schedule page is displayed.

If your institution has implemented delivery of course material via WebCT when Campus Pipeline is not in use, the title of each section with WebCT delivery can be displayed as a link to your WebCT login page. The section title is displayed as a link only for sections flagged for WebCT content and/or delivery.

This release includes the following new objects:

- Package bwlkcrse, which includes the new P_DispcrseSchd procedure
- Package bwlkcrse, which includes the new P_FacStuSchd procedure
