Release Summary

The 8.2.2 release notes provide an overview of the Canadian Record of Employment and the Statistics Canada Reporting enhancements to Banner® Human Resources.

Human Resources 8.2.2 is an optional regulatory release.

System Requirements

The following minimum releases must be installed to upgrade to Banner Human Resources 8.2.2:

- Banner General 8.2
- Banner Position Control 8.2
- Banner Human Resources 8.2

1

Canadian Record of Employment - Functional

The following enhancements have been made to the Canadian Record of Employment (ROE) processing. The Canadian Record of Employment Table (PXRROEC) and the Canadian Record of Employment Form (PXAROE) are modified to allow institutions to record the last 53 weeks of insurable hours of a terminating employee, and to track the name of the ROE bulk transfer file that is uploaded to the government's Web ROE system. The Canadian Mass ROE Creation Process (PXPMROE) was modified to provide institutions the capability to produce the history of insurable hours by pay period en mass.

Changed Form

Canadian Record of Employment Form (PXAROEC)

A new field, **Bulk Transfer File Name**, has been added to the Canadian Record of the Employment Form (PXAROEC).

Field	Description
Bulk Transfer File Name	Tracks the file name sent to the government's Web ROE system.

A new field, **Insurable Hours**, has been added to the Pay Period Earnings History block of the PXAROEC form.

Field	Description
Insurable Hours	Breakdown of the Total Insurable Hours by payroll periods.

Changed Processes

Canadian ROE Generation Process (PXRROEC)

The Canadian ROE Generation Process (PXRROEC) has been modified to generate the bulk transfer file with the Banner job submission number as a part of the file name. As a result, each file is unique, such as `pxrroec_XXXXX.blk`. Here, "XXXXX" represents the Banner job submission number.

Canadian Mass ROE Creation Process (PXPMROE)

The Canadian Mass ROE Creation Process (PXPMROE) has been modified to populate the newly added Insurable Hours fields (`pxrroec_pp1_hrs` to `pxrroec_pp53_hrs`). The rules for creating the values in these fields are the same as the field values created on the PXAROEC form.

2

Canadian Record of Employment - Technical

This section discusses the following technical changes.

Changed Table

The following Banner Human Resources table has been modified:

Canadian Record of Employment Table (PXRROEC)

The following columns have been added to this table.

Database Column	Null?	Data Type
PXRROEC_PP1_HRS	NULL	NUMBER(9,2)
PXRROEC_PP2_HRS	NULL	NUMBER(9,2)
PXRROEC_PP3_HRS	NULL	NUMBER(9,2)
PXRROEC_PP4_HRS	NULL	NUMBER(9,2)
PXRROEC_PP5_HRS	NULL	NUMBER(9,2)
PXRROEC_PP6_HRS	NULL	NUMBER(9,2)
PXRROEC_PP7_HRS	NULL	NUMBER(9,2)

PXRROEC_PP53_HRS	NULL	NUMBER(9,2)
PXRROEC_BULK_FILE_NAME	NULL	VARCHAR2(30)

3

Canadian Annual Staff Survey Reporting - Functional

Annual Stats Canada Reporting (PXRASCD) and Annual Statistics Canada Data Survey Form (PXAASCD) have been modified to be in compliance with the new regulatory changes to the University Full-time Survey report.

Both previously supported University Part-time Teaching Staff and College Educational Staff Survey reports are no longer required by the Statistics Canada. Therefore the reporting functionality of these two surveys has been disabled. However, the customers' historical reporting data remains the same.

Note

The customers' pre-2009 historical data of the University Full-Time, University Part-time, and College Staff Survey will not be affected by this upgrade. ■

Changed Form

Annual Statistics Canada Data Survey Form (PXAASCD)

Two new tabs, **Survey Data** and **Pre-2009 Survey**, have been added in the Annual Statistics Canada Data Survey Form (PXAASCD). The **Survey Data** tab displays the University full-time staff survey data according to the new requirements for survey year of 2009 and beyond. The previous main data block is now labeled as **Pre-2009 Survey**, and it displays the data from the PXRASCF, PXRASCP, and PXRASCC tables for survey years earlier than 2009.

Tab	Description
Survey Data	University full-time staff survey data based on the new requirements, starting from year 2009.
Pre-2009 Survey	The previous main data block has been moved under this tab that contains the historical data for surveys prior to year 2009.

Survey Data Details Block

Field	Description
ID	Employee Identification Number.
Name	Employee Name.
01	Reporting Institution. Maximum data length is 8.
02	Permanent Identification Number.
03	Gender.
04	Year of Birth.
05	Department. Maximum data length is 2.
06	Salary Status.
07	Actual Salary. Maximum data length is 7.

Field	Description
08	Annual Rate of Salary. Maximum data length is 7.
09	Administrative Stipends. Maximum data length is 6.
10	Senior Administrative Responsibilities. Maximum data length is 1.
11	Number of Months on Sabbatical Leave. Maximum data length is 2.
12	Number of Months on Unpaid Leave. Maximum data length is 2.
13	Reduced Load.
14	Previous Employment.
15	Province or Country of Previous Employment.
16	Year of First Degree.
17	Province or Country of First Degree.
18	Level of Highest Earned Degree.
19	Year of Highest Earned Degree.
20	Province or Country of Highest Degree.
21	Country of Citizenship at time of Appointment.
22	Rank. Maximum data length is 1.
23	Year of Appointment to Present Rank.
24	Type of Appointment.
25	Medical or Dental Appointment Category.
26	Year of Appointment to Institution.

Field	Description
27	Principal Subject Taught. Maximum data length is 4.
User ID or Process	ID of the user or process that last updated the record. Display only.
Data Modified	Check box to indicate whether the data is modified.
Activity Date	Date on which the record was last created or updated.
Report Indicator	Check box to indicate whether the appointment is reported to Statistics Canada.

Changed Process

Annual Stats Canada Report (PXRASCD)

The Annual Stats Canada Report (PXRASCD) has been modified to support the new university full-time staff survey data generation and reporting. The existing functionality for the university full-time staff survey is modified whereas the other functionality for university part-time and college staff survey is disabled.

Parameters	Name	Description/Values	Required?	Default	Validation
01	Report Year	Year for which data is requested.	Yes	None	Format must be YYYY or YY
02	Report Begin Date	The first date in the period covered by the report.	Yes	None	DD-MON-YYYY or DD-MON-YY date format
03	Report Type	Type of survey for which data is to be extracted and (optionally) for which a report or flat file is to be produced: F University Full-time Teaching Staff Survey	Yes	None	Must be <i>F</i>
04	Process Type	Action to be taken by the process: E Only extract data R Create a report C Create a flat file	Yes	None	Must be <i>E, R, or C</i>
05	ID Type	Number to be used as the Permanent Staff Identification Number for each faculty member: S Social Insurance Number B Banner ID	Yes	None	Must be <i>S or B</i>

Parameters	Name	Description/Values	Required?	Default	Validation
06	Salary Calculation Method	Calculation method: A Actual Paid E Expected Salary	Required for Report Type P or C. Otherwise, optional.	A	None
07	Academic Year Begin Date	Enter the Begin Date of the Academic Year.	No	None	DD-MON-YYYY date format

Sort Order

For University Full-Time Teaching Staff Survey: First by reporting institute, then by department, then by last name, then by first name, and last by ID.

For University Full-Time Teaching Staff Survey – PXRASCF

Standard horizontal report format

Annual Stats Canada Reporting (PXRASCD) - University Full-Time Teaching Staff Survey Fields

As per the new requirement, the Reporting Institution code has been expanded from 6 digits to 8 digits. Institutions are required to translate the old 6-digit code in College Code Validation Form (STV COLL) to the new 8-digit code in the Cross-walk Validation form (GTVSDAX).

The following fields are required for PXRASCD report to populate the new institution codes.

GTVSDAX Fields	Values
Internal Code	PXRASCD

Group	STV_COLL_STATSCAN_CDE
External Code	Old 6-digit code from the Canadian Statistics Code in STV_COLL form.
Translation Code	New 8-digit Reporting Institution code that is assigned by the Statistics Canada.

The following table contains field descriptions for the University Full-Time Teaching Staff Survey. In this table, each field containing an element for the report/flat file is identified by its element number and name. This identification data is followed by a brief description of the field.

Fields	Name	Description
	Report Year	Year for which report data is being presented.
	01 - Reporting Institution	<p>This 8-digit element is used to identify the reporting institution for the faculty member.</p> <p>The information is extracted by PXRASCD from the Faculty College and Department data grouping on the Faculty Assignment Record (SIAASGN). The college defined as the home college is selected. The Translation Code in GTVSDAX form that translates the Statistics Canada code for the home college defined on the College Validation Form (STV_COLL) is inserted into the record. See the above procedure on how to maintain this code in GTVSDAX.</p> <p>If Banner Student is not installed, then this field is null after the extract and must be populated through custom programs or by entering the appropriate value on the Annual Statistics Canada Survey Data Form (PXAASCD).</p>
	02- Permanent Staff Identification Number	<p>This 9-digit element is the unique number that identifies the individual faculty member. This number must remain the same from year to year. The number can be the faculty member's Banner ID or Social Insurance Number (SIN). Use of the SIN is considered acceptable by Statistics Canada.</p> <p>The field is populated during the PXRASCD data extract. You have the choice of selecting the Banner ID or the Social Insurance Number.</p>

Fields	Name	Description
	03 - Gender	<p>This 1-digit element is used to report the gender of the faculty member.</p> <p>The information is extracted by PXRASCD from the Identification Form (PPAIDEN). If the gender is defined as <i>Male</i>, the process populates this field with a <i>1</i>. If the gender is defined as <i>Female</i>, the process populates this field with a <i>2</i>.</p>
	04 - Year of Birth	<p>This 4-digit element is used to report the faculty member's year of birth.</p> <p>The information is extracted by PXRASCD from the Identification Form (PPAIDEN) in the YY format as prescribed by Stats Canada.</p> <p>If the year of birth is unknown, the process inserts <i>9999</i> into this field.</p>
	05 - Department	<p>In this 2-digit element, report the department to which the faculty member is appointed.</p> <p>The field is populated during the PXRASCD data extract and is based on the employee's organization code defined on the Employee Jobs Form (NBAJOBS) on October 1st of the reporting year.</p> <p>The value on the Employee Jobs Form (NBAJOBS) is matched to that on the Statistics Canada Department Rule Form (PTRSCDP).</p>
	06 - Salary Status	<p>This 1-digit element provides information on the salary status of the faculty member.</p> <p>The field is populated with a <i>1</i> by PXRASCD during the data extract. The value can be modified.</p>
	07 - Actual Salary	<p>This 7-digit element represents the actual gross salary to be paid to the faculty member.</p> <p>This includes vacation pay but not stipends and other honoraria. The reported actual salary is calculated based on the faculty member's negotiated salary settlement as of October 1st of the reporting year. This element does not include any future salary increases.</p> <p>The field is populated during the PXRASCD data extract and is based on the employee's annual salary defined on the Statistics Annual Salary Form (PEISTAN) on October 1st of the reporting year.</p> <p>Before PXRASCD is run, the calculation of the employee's salary must be performed using the Calculate Statistics Salary (PEPCSAL) process with an effective date of October 1st of the reporting year.</p>

Fields	Name	Description
	08 - Annual Rate of Salary	<p>This 7-digit element reflects the annual rate of salary to be paid to the faculty member.</p> <p>For staff employed full-time with less than a full load, this element represents the annual salary the faculty member would have received if he/she was employed on a full load basis.</p> <p>The field is populated during the PXRASCD data extract and is based on the salary and FTE defined on the Employee Jobs Form (NBAJOBS) where the effective date is less than or equal to October 1st of the reporting year.</p> <p>Example:</p> <p>If the annual salary defined for the faculty member on NBAJOBS is \$24,000.00 and the faculty member's FTE is defined as .75 on NBAJOBS, the faculty member's annual rate is \$32,000.00 ($\\$24,000.00 * 100/75$).</p>
	09 - Administrative Stipends	<p>This 6-digit element is used to report annual stipends or other honoraria for administrative duties paid to the faculty member.</p> <p>The information is extracted by PXRASCD from the default earnings specified on the Employee Jobs Form (NBAJOBS). The process calculates the amount to be received by the faculty member during the course of the year.</p> <p>Only earnings defined as cash stipends on the Earnings Code Rule Form (PTREARN) are considered in the calculation.</p>
	10 - Senior Administrative Responsibilities, Researchers, and Visitors	<p>This 1-digit code reports researchers, visitors, and those staff members with senior administrative responsibilities.</p> <p>This data element is based on the faculty type identified for the faculty member as of October 1st of the reporting year. This information is entered on the Faculty Action Tracking Form (PEAFAC) as part of the faculty member's appointment/reappointment information. Only records that are approved are considered during the extract. The Stats Canada value associated with the faculty member's faculty type is reported.</p>
	11 - Number of Months on Sabbatical Leave during the current academic year	<p>This 2-digit element reports the number of months on sabbatical leave.</p> <p>Number of months on sabbatical is determined by reading the information contained in the Faculty Action Tracking Form (PEAFAC) where a faculty member is approved for a leave identified as sabbatical.</p>

Fields	Name	Description
	12 - Number of months on unpaid leave during the current academic year	<p>This 2-digit element reports the number of months on unpaid leave.</p> <p>Number of months on unpaid leave is determined by reading the information contained in the Faculty Action Tracking Form (PEAFAC) where a faculty member is approved for a leave that is not identified as a sabbatical and is associated with a leave status of No Pay.</p>
	13 - Reduced Load	<p>This 2-digit element applies to all full-time faculty members who have entered into a formal agreement with the institution to carry out their duties on a reduced load for the entire academic year.</p> <p>PXRASCD extracts the faculty member's FTE as of October 1st of the reporting year. This information is contained on the Employee Jobs Form (NBAJOBS).</p> <p>A faculty member who is reported as having less than a full load is also reported as having an annual salary (element 07) that is less than his/her annual rate of salary (element 08).</p>
	14 - Previous Employment	<p>This 2-digit element is used to report the type of employment (or occupation) of the faculty member prior to his/her appointment at the institution. The information is extracted by PXRASCD from the Person Experience Form (PPAEXPR). The process determines which record specifies the last employer and reports the Stats Canada employment type associated with that record.</p> <p>If no data is found for prior experience, the process populates this field with a value of 99.</p>
	15 - Province or Country of Previous Employment	<p>This 5-digit element is used to report the province or country associated with the faculty member's previous employment.</p> <p>The information is extracted by PXRASCD from the Person Experience Form (PPAEXPR). The process determines which record specifies the last employer and reports the province or country associated with that record. The process determines the Stats Canada province/nation code value by comparing the code entered on PPAEXPR with the Stats Canada Code associated on the Province/State Validation Form (STVSTAT) and the Nation Validation Form (STVNATN).</p> <p>If no data is found for prior experience, the process populates this field with a value of 99999.</p>

Fields	Name	Description
	16 - Year of First Degree	<p>In this 4-digit element, the year in which the faculty member obtained his/her first university degree, post-secondary diploma, or professional designation is reported.</p> <p>The information is extracted by PXRASCD based on information entered on the General Information Form (PPAGENL). If the faculty member has a degree, the earliest graduation year is selected for reporting purposes. If no degree records are found, the process determines whether there are certification records on the Employee Certification Form (PPACERT). The earliest certification record is selected.</p> <p>No degree, diploma, or professional designation = 9998</p> <p>Unknown = 9999</p>
	17 - Province or Country of First Degree	<p>In this 5-digit element, the province or country associated with the school where the faculty member obtained his/her first degree is reported.</p> <p>If a degree was reported in element 16, then the province or country associated with the institution where the degree was received is reported in this field. If a certification was reported in element 16, then the value in this field is 99999 for unknown.</p>
	18 - Level of Highest Earned Degree	<p>In this 1-digit element, the level of the faculty member's highest earned degree, diploma, or professional designation is reported.</p> <p>The information is extracted by PXRASCD based on information entered on the General Information Form (PPAGENL). If the faculty member has a degree, the earliest graduation year is selected for reporting purposes. If no degree records are found, the process determines whether there are certification records on the Employee Certification Form (PPACERT). The earliest certification record is selected.</p>

Fields	Name	Description
	19 - Year of Highest Earned Degree	<p>In this 4-digit element, the year in which the faculty member obtained his/her highest university degree, post-secondary diploma, or professional designation is reported.</p> <p>The information is extracted by PXRASCD based on information entered on the General Information Form (PPAGENL). If the faculty member has a degree, the highest graduation year is selected for reporting purposes. If no degree records are found, the process determines whether there are certification records on the Employee Certification Form (PPACERT). The highest certification record is selected. If code 8 was used in element 18, 9998 is shown for element 19.</p> <p>If code 9 was used in element 18, then code 9999 should be shown for element 19.</p> <p>Unknown = 9999</p>
	20 - Province or Country of Highest Degree	<p>In this 5-digit element, the province or country associated with the school where the faculty member obtained their highest degree is reported.</p> <p>If a degree was reported in element 18, then the province or country associated with the institution where the degree was received is reported in this field. If a certification was reported in element 18, then the value in this field is 99999 for unknown.</p>
	21 - Country of Citizenship at Time of Appointment	<p>The faculty member's current country of citizenship is reported in this element.</p> <p>PXRASCD extracts the citizenship information from the information contained on the International Form (GOAINTL).</p> <p>If a value is found in the Citizenship field, then this is reported to Statistics Canada. If no information is found in this field, the value 99999 is reported. Canadian citizens are not tracked on the International Form and are reported as 80021 Canadian.</p>
	22 - Rank	<p>This 1-digit code reports the staff member's current rank at the institution.</p> <p>PXRASCD extracts the faculty member's rank as of October 1st of the reporting year. This information is entered on the Faculty Action Tracking Form (PEAFAC). Only records that are approved are considered during the extract. The Stats Canada value associated with the current rank is reported.</p>

Fields	Name	Description
	23 - Year of Appointment to Present Rank At Current Institution	<p>In this 4-digit element, the year in which the faculty member attained his/her current rank is reported. Current rank is reported in element 22.</p> <p>PXRASCD extracts the rank effective date associated with element 22. This information is entered on the Faculty Action Tracking Form (PEAFACT).</p> <p>Only records that are approved are considered during the extract.</p> <p>Unknown = 9999</p>
	24 - Type of Appointment	<p>This 1-digit element identifies the type of appointment held by the faculty member.</p> <p>PXRASCD extracts the faculty member's tenure information as of October 1st of the reporting year. This information is entered on the Faculty Action Tracking Form (PEAFACT) as part of the faculty member's appointment/reappointment information. Only records that are approved are considered during the extract.</p>
	25 - Medical or Dental Appointment Category	<p>This 1-digit element is used to report the appointment category for faculty members in the faculties of medicine (including veterinary medicine) and dentistry.</p> <p>This data element is currently not supported within Banner. PXRASCD inserts a value of 9 in this field for all faculty members.</p>

Fields	Name	Description
	26 - Year of Appointment to Institution	<p>In this 4-digit element, the year of appointment (or reappointment) to a full-time position in a faculty at the institution is reported.</p> <p>The information is extracted by PXRASCD from the appointment information on the Faculty Action Tracking Form (PEAFACT). The process determines the faculty member's earliest year of appointment to the institution with no interruption of service. Leave of absence, sabbatical, or other temporary leaves are not considered an interruption of service.</p> <p>If the year of appointment is unknown, the process inserts 9999 into this field.</p>
	27 - Principal Subject Taught	<p>This 4-digit element specifies the principal subject taught by the faculty member. If a faculty member is on leave, then this element reports the subject that the faculty member would have taught had he/she not been on leave.</p> <p>PXRASCD extracts the faculty member's discipline as of October 1st of the reporting year. This information is entered on the Faculty Action Tracking Form (PEAFACT) as part of the faculty member's appointment/reappointment information. Only records that are approved are considered during the extract.</p>
