# Introduction

---

This release guide documents Release 8.1.1 of Banner Student Self-Service. Release 8.1.1 includes the following:

- Ethnicity and Race enhancement
- Problem resolutions

# Ethnicity and Race Enhancement - Functional

With this release, you can now present a survey to Student Self-Service users to obtain ethnicity and race information. If the survey parameters have been established in Web General, when a user successfully logs on to Self-Service, the survey will be presented and the user will have the option to complete the survey or to complete it later. Once the user has completed the survey, it will no longer be presented to that user. Refer to the *Web General Release Guide 8.1.1* for more information about the survey, and refer to the *Web Tailor Release Guide 8.1.1* for information about Web Tailor seed data.

In addition to the survey, the fields for race on the Prospect Self-Service and Admissions Self-Service pages have been modified. The pages have been updated to display the layout of the new Update Ethnicity and Race page.

## Warning

Depending on your locale, it might be illegal to require users to provide ethnicity and race information. Do not check the **Required** checkbox on SAAWAPP for the *PERSONAL* (Personal Information) Web application section code or the **Response Required on Web** checkbox on SRAWPRO for the *ETHNICITY* (Prospect Ethnicity/Race) Web prospect selection code if requiring users to provide ethnicity and race information is prohibited.

If such a regulation applies to your institution, you must also review your existing Web application definitions and uncheck these checkboxes for any applications for which they are currently checked. ■

This enhancement resolves the following defects: #1-4A9H5X, #1-4AA1Y7, and #1-4AA200.
